

Project #MW96852 - Yao Ministry

Project Vision

The vision of this project is to support all current and future aspects of the outreach & church planting as well as ministries among/for the Muslim Yao people group.

Project background

Supporting various aspects of the Yao outreach and church planting ministries. SIM has been involved in Yao outreach ministry since the 1980s, but little fruit is really evident in this difficult field.

This project will continue to support the efforts of the outreach & church planting efforts as well as radio ministries among/for the one remaining unreached, mainly Muslim, people group in Malawi: the Yao. This includes, but is not limited to, the coverage of transportation, housing and ministry related personnel and material costs etc. An important new aspect in this regard is that SIM Malawi will maybe have in the foreseeable future mainly missionaries from new contexts being placed in this ministry with very limited or no access to personal ministry funds. (In 2014 a couple from Ethiopia joined the team to engage with the rural Yao).

Needs may vary depending on the placement location and with growing experience through ministry involvement.

Prayer requests

- Pray for funds to assist these ministries among the Yao people
- Pray for more workers to join this ministry
- Pray for protection and courage for the missionary workers in the area, in the face of Islam and opposition
