

Project #MW96058 - Chichewa Bible Study Books

Vision of the project

To provide Bible study resources in Chichewa for either personal or group Bible Study

Project background

The project started back in the 1990s to help meet the need of the women of the Africa Evangelical Church for materials to use in teaching in their weekly meetings. It expanded from there to provide books for everyone, even for personal use, including a Bible Survey series. The purpose is to help Christians to increase their knowledge of God's word and as a result to grow in their Christian life.

Prayer Points

Pray that God will guide the future development of resources in the Chichewa language so that these resources will be well used.

Pray that Marilyn will be able to find the time to continue providing writing new Bible study materials for the Malawian churches
